

Successful Recipes

compelling covers & reports

Ingredients

1 visionary creative director

1 inspired production team that knows how to produce covers and reports that stand out

1 accurate reports writer and proof reader

Method

When it comes to company covers and reports, we understand better than anyone the value of image. Far from being simply facts and figures, covers and reports are an important opportunity to project a great visual - as well as written - impression of your business. An impression where style matches substance, where practicality meets inspiration.

Mango's ability to understand our product and translate our briefs into concise and well targeted communications takes a lot of hassle out of what could be a fairly complicated process. The fact they have expertise in both online and offline disciplines means we're guaranteed consistency across all our marketing materials.

Chris Popple
Managing Director

That's why at Mango, our friendly and helpful covers and reports team are on hand with all the skills and experience to turn your covers and reports into a true reflection of your company's achievements, ethos and ambition.

Gone are the days of uninspiring, standard documents. In today's dynamic business environment, Mango will bring colour, zest and brand consistency to your covers and reports.

An annual report doesn't need to be dull. Our creative services team can transform monochrome covers and reports into documents that interest and inspire their readers. Our report writers will put your message across in the most compelling, condensed way. And using shots taken by our photographers or creative illustrations and technical drawings, our team can breathe life into all your covers and reports.

To guide you through the process of producing the juiciest covers and reports, the Mango production services team will work with you at every stage. Firstly we produce visual ideas for your covers and reports, including any illustrations, charts, graphs, diagrams or photography you may need to use. Next we present our ideas to you, either on boards or by pdf, making sure our vision matches your own and giving you the opportunity to make changes to your covers and reports.

And when everyone is happy, we produce final artwork and send your covers and reports to print, whether it is digitally for short runs of 1 to 500 or standard litho for larger quantities. But we don't stop there. We'll deliver your covers and reports for you - to as many locations you require.
